5 tasks to hand TO AI THIS WEEK

The exact prompts for the 5 tasks from the carousel. Fill in the [brackets] and paste.

01 Caption first drafts

TOOL

ChatGPT (or any AI chat)

```
You are a social media copywriter for [business/niche].
Audience: [who they are, city, age].
Write 10 hook options for a post about [topic].
Tone: [friendly / expert / witty]. Max 12 words each.
Then write 1 caption under 120 words using the best hook, ending with one question.
```

02 Summarise long documents

TOOL

Claude (or any AI chat)

```
Here are my notes / client brief:
[paste text]
Summarise in a table with 3 columns: Key decisions | Open questions | Next steps (owner + deadline if mentioned).
Don't add anything that isn't in the text. Flag anything unclear.
```

03 Research a topic fast

TOOL

Gemini (or any AI chat with web access)

```
Give me a short overview of [topic] for [audience] in India.
List 5 key points, each with the source link and date.
Mark anything you are unsure about.
I will open and check every source before I use it.
```

04 Resize one design

TOOL

Canva

```
No prompt needed. Steps:
1. Finish your 4:5 post (1080×1350).
2. Use Resize (Canva Pro) to make a 9:16 Story, a Reel cover and a
LinkedIn version.
3. Fix text that moved and keep the key word inside the safe area.
No Pro? Duplicate the design into a new size and copy the elements over.
```

05 Draft replies to common DMs

TOOL

Any AI chat

```
Here are the 10 questions I get most in DMs:
[paste list]
Write a short, friendly reply to each (max 40 words), in my voice:
[describe how you talk].
End each reply with one clear next step.
I'll save these as quick replies.
```

Rule: AI writes the first draft. You add your own example and edit it in your voice before you post.
