Test an AI tool BEFORE YOU PAY

A 20-minute test to compare two AI tools on your own work.

01 Pick one real task

- [ ] Choose a task you actually do every week (caption, summary, research, design)
- [ ] Write down how long it takes you today

02 Same prompt, 2 tools

- [ ] Write one clear prompt (role, context, task, format)
- [ ] Run the exact same prompt in both tools
- [ ] Use the free plan first if one exists

03 Time it

- [ ] Note the minutes until you get a result you'd actually use
- [ ] Count how many follow-up prompts you needed

04 Check every fact

- [ ] Verify every number, date and claim against a real source
- [ ] Note any made-up facts or broken links

05 Score sheet
